

Dr Ross Hawkins

Publications

Stacey GN, Byrne E & Hawkins JR. (2014). DNA fingerprinting and Characterisation of Animal Cell Lines. In: *Animal Cell Biotechnology: Methods and Protocols* (2nd Edition). Ed: Pörtner R. *Methods in Molecular Biology* 1104: 57-73

Boyle J, Thorpe SJ, Hawkins JR, Lockie C, Fox B, Matejtschuk P, Halls C, Metcalfe P, Rigsby P, Armstrong-Fisher S, Varzi AM, Urbaniak S, Daniels G. (2013) International reference reagents to standardise blood group genotyping: evaluation of candidate preparations in an international collaborative study. *Vox Sang.* 104:144-52.

Boyle J, Hawkins M, Barton DE, Meaney K, Guitart M, O'Grady A, Tobi S, Ramsden SC, Elles R, Gray E, Metcalfe P & Hawkins JR. (2011) Establishment of the first WHO international genetic reference panel for Prader Willi and Angelman syndromes. *Eur. J. Hum. Genet.* 19:857-64.

Stacey GN, Hawkins JR and Fleck, RA. (2011) Cryopreservation and Banking of Cell Lines. In "*Animal Cell Culture: Essential Methods*". Ed. J. Davis Wiley, Chichester, UK. p185-203.

Hawkins M, Boyle J, Wright KE, Elles R, Ramsden SC, O'Grady A, Sweeney A, Barton DE, Burgess T, Moore M, Burns C, Stacey G, Gray E, Metcalfe P & Hawkins JR (2011) Preparation and validation of the first WHO international genetic reference panel for Fragile X syndrome. *Eur. J. Hum. Genet.* 19: 10-17.

Hawkins JR, Hawkins M, Boyle J, Gray E, Matejtschuk P & Metcalfe P. (2010) Genetic Reference Materials and Their Application to Haematology. *Biologicals* 38: 467-473.

Stacey G, Hawkins R, Carter P, Hunt C & Young L. (2007) Replacement Seed Stock for MRC-5 cells. WHO/BS/07.2077. URL: www.who.int/biologicals/BS_2077_MRC-5.pdf

Gray E, Hawkins JR, Morrison M, Hawkins M, Byrne E, Kitchen S, Jennings I, Makris M, Preston FE, Metcalfe P. (2006) Establishment of the 1st International Genetic Reference Panel for Factor V Leiden, human gDNA. *Thromb Haemost.* 96:215-9.
