

## Publications – Bernard Fox

Sandra Prior, Simon E. Hufton, **Bernard Fox**, Thomas Dougall, Peter Rigsby, Adrian Bristow & participants of the study. International standards for monoclonal antibodies to support pre- and post-marketing product consistency: Evaluation of a candidate international standard for the bioactivities of rituximab. *mAbs*. 2018; 10(1), 129-142.

S. J. Thorpe, **B. Fox**, G. Sharp, J. White and C. Milkins. A WHO reference reagent to standardize haemagglutination testing for anti-A and anti-B in serum and plasma: International collaborative study to evaluate a candidate preparation. *Vox Sanguinis*. 2016; 111(2), 161-170.

Sandrine Vessillier, David Eastwood, **Bernard Fox**, Sethu Swaminathan, Jean Sathish, Susan Thorpe, Robin Thorpe, Richard Stebbings. Cytokine release assays for the prediction of therapeutic mAb safety in first-in man trials - Whole blood cytokine release assays are poorly predictive for TGN1412 cytokine storm. *Journal of immunological methods* 2015; vol. 424, 43-52.

Daniel M Reed, Koralia E Paschalaki, Richard D Starke, Nura A Mohamed, Giles Sharp, **Bernard Fox**, David Eastwood, Adrian Bristow, Christine Ball, Sandrine Vessillier, Trevor T Hansel, Susan J Thorpe, Anna M Randi, Richard Stebbings, Jane A Mitchell. An autologous endothelial cell-PBMC assay that detects cytokine storm responses. *The FASEB Journal* 2015; vol. 29 no. 6 2595-2602

Sandrine Vessillier, David Eastwood, **Bernard Fox**, Sethu Swaminathan, Jean Sathish, Susan Thorpe, Robin Thorpe, Richard Stebbings. Glycophorin a blocks the response to TGN1412 in whole blood cytokine release assays. *Toxicology Letters* 09/2014; 229:S207-S208.

Susan J. Thorpe, Alan Heath, **Bernard Fox**, Dina Patel and William Egner. The 3rd International Standard for serum IgE: international collaborative study to evaluate a candidate preparation. *Clinical Chemistry and Laboratory Medicine*. 05/2014; 52(9).

Boyle, J., Thorpe, S. J., Hawkins, J. R., Lockie, C., **Fox, B.**, Matejtschuk, P., Halls, C., Metcalfe, P., Rigsby, P., Armstrong-Fisher, S., Varzi, A. M., Urbaniak, S. and Daniels, G. (2012), International reference reagents to standardise blood group genotyping: evaluation of candidate preparations in an international collaborative study. *Vox Sanguinis*. 2013; **104**:144-152

Christina Ball, **Bernard Fox**, Simon Hufton, Giles Sharp, Stephen Poole, Richard Stebbings, David Eastwood, Lucy Findlay, Paul W.H.I. Parren, Robin Thorpe, Adrian Bristow, and Susan J. Thorpe. Antibody C Region Influences TGN1412-Like Functional Activity In Vitro. *The Journal of Immunology* 2012; vol. 189 no.12 5831-5840

Findlay, L., Sharp, G., **Fox, B.**, Ball, C., Robinson, C.J., Bird, C., Stebbings, R., Thorpe, S.J. Endothelial cells co-stimulate peripheral blood mononuclear cell responses to monoclonal antibody TGN1412 in culture. *Cytokine* 2011; 55 (1), 141-151

SJ Thorpe, **B Fox**, G Sharp, AB Heath, M-E Behr-Gross, E Terao, ML Virata-Theimer and MW Yu. International collaborative study to evaluate candidate reference reagents to standardise haemagglutination testing for anti-A and anti-B in normal intravenous immunoglobulin products. *Vox Sanguinis* 2009; 97, 160-168.

SJ Thorpe, C Ball, **B Fox**, KM Thompson, R Thorpe and A Bristow. Anti-Rh D and anti-i activities are inseparable in V<sub>4-34</sub>-encoded monoclonal anti-Rh D: the same framework 1 residues are required for both reactivities. *Transfusion* 2008; 48, 930-940.

R Stebbings, L Findlay, C Edwards, C Bird, D North, D Eastwood, Y Mistry, P Dilger, E Liefoghe, I Cludts, **B Fox**, G Tarrant, J Robinson, T Meager, C Dolman, S Thorpe, A Bristow, M Wadhwa, R Thorpe, S Poole. TGN1412 "Cytokine Storm" in the Phase 1 Trial of monoclonal antibody TGN1412: better understanding the causes to improve preclinical testing of immunotherapeutics. *Journal of Immunology* 2007; 179: 3325-3331

SJ Thorpe, **B Fox**, A Heath, M-E Behr-Gross, ML Virata and MW Yu. International collaborative study to establish immunoglobulin (anti-D test) BRP Batch 1. *Pharmeuropa Bio* 2006; 1: 49-56.

SJ Thorpe, **B Fox**, AB Heath, M Scott, M de Haas, S Kochman and A Padilla. International Standards for minimum potency of anti-A and anti-B blood grouping reagents: evaluation of candidate preparations in an international collaborative study. *Vox Sanguinis* 2006; 91: 336-344.

SJ Thorpe, **B Fox**, A Heath, M-E Behr-Gross, ML Virata and MW Yu. International collaborative study to assess candidate reference preparations to control the level of anti-D in IVIG for use in Europe and the United States. *Biologicals* 2006; 34: 209-212.

SJ Thorpe, **B Fox**, AB Heath, M Scott, M de Haas, S Kochman, A Padilla. An international standard for minimum potency of anti-D blood grouping reagents: evaluation of a candidate preparation in an international collaborative study. *Vox Sanguinis* 2006; 90: 131-139.

Thorpe, S.J , **Fox, B**, Heath, A, Dolman, C , Virata, M.L , Yu, M.W , Thorpe, R. International collaborative study to evaluate a candidate reference preparation to define an appropriate specified limit of anti-D in intravenous immunoglobulin products. *Vox Sanguinis* 2005; 88: 278-287.

SJ Thorpe, **BJ Fox**, CD Dolman and R Thorpe. Anti-A and anti-B activity in batches of different intravenous immunoglobulin products determined using a direct haemagglutination method. *Biologicals* 2005; 33/2: 111-116.

SJ Thorpe, D Sands, **B Fox**, G Schäffner, MW Yu and M-E Behr-Gross. Collaborative study for establishment of a global standard for the potency assay of human anti-D immunoglobulin. *Pharmeuropa Bio* 2003-2, 9-26

SJ Thorpe, D Sands, **B Fox**, M-E Behr-Gross, G Schäffner and MW Yu. A global standard for anti-D immunoglobulin: international collaborative study to evaluate a candidate preparation. *Vox Sanguinis* 2003; 85: 313-321

SJ Thorpe, **BJ Fox**, CD Dolman, J Lawrence and R Thorpe. Batches of intravenous immunoglobulin associated with adverse reactions in recipients contain atypically high anti-Rh D activity. *Vox Sanguinis* 2003; 85: 80-84

SJ Thorpe, **B Fox**, C Turner and M Scott. Competitive enzyme-linked immunoassay of IgG monoclonal anti-D. *Transfusion Medicine* 2003; 13: 153-159

Thorpe SJ, **Fox B** & Sands D: A Stable Lyophilized Reagent for Use in a Potential Reference Assay for Quantitation of Anti-D in Immunoglobulin Products. *Biologicals* 2002; 30: 315-321

**Fox BJ**: Kinetics of Anti-D binding to Rh D+ erythrocytes. *Transfusion Medicine* 1997; 7 (Suppl. 1):
